A population pyramid (or age-sex pyramid) is a visual representation of the distribution of age and sex within a given population. It's essentially a stacked, horizontal bar chart used to interpret the stage of demographic transition or visualize the current/future state of a given population (most often that of a country, continent or region of the world).

Sample Population Pyramid A population pyramid is a graph which shows the age-sex distribution of a country's population at a given time. This diagram shows the variation of both, the male and female populations with age, which is not possible with conventional bar graphs, and results in a pyramidal structure.
