1964 Ford Falcon Manual Transmission Lube

Your manual is a Ford "303" series transmission with a designation of either RAT, RAN, HEF, and maybe one other. Standard gear oil is what is called for. In the old days it would have been just straight 90 weight for most climates, 140 weight for super duty use in a hot climate (not needed that often in an EB) or 80 weight in colder climates I think.

This article applies to the Ford F-150 (1988-2008). Although the factory doesn't require the transmission fluid to be replaced except for at every 60k miles, when your Ford F-150 starts racking up the miles, replacing the fluid more often is a great way to protect the transmission.

Ford F150: How to Change M5OD Manual Transmission Fluid ...

But gear lube isn't the only choice for a manual transmission. In fact, many modern manual transmissions actually spec for automatic transmission fluid instead of a traditional gear oil. Regardless of what your manual transmission uses, the fluid or oil's primary function is lubrication—preventing metal-to-metal contact between the meshing gears.
