Groups of students will have to design and build a model of a castle, using these building bricks. We will tie in real world math concepts such as finding the the surface area and volume of complex geometric shapes. The students will have to come up with a building budget that includes land purchase, materials, and labor costs.

Performance Based Assessment: Building Sandcastles

Sep 7, 2012 - This year in my Advanced Geometry class, we did a project on solids. The students had to create a 3D figure using at least one of each of the solids we discussed in class (Sphere, Cone, Cylinder, Prism, Pyramid). The projects were to be completed at home. On the due date, the students brought their projects to class an...
