Pmp Requirements Document
As described in PMP Training, project documents are important for each phase of the project life cycle; and naturally so are the requirements documents. Because requirements are foundations of the project scope and they reflect the expectations of project stakeholders. Requirements history, whether it is in the final list, or eliminated, which deliverable will fulfill the requirement etc. needs to be documented in order to meet all agreed requirements of a project once the project is completed.

Project Management and the Requirements Traceability ...
The primary purpose of this document is to track the status of change requests that have been created on the project. For smaller projects or projects where the scope is well defined, the log may not be useful. For larger, more complex projects, or for those projects where there is a lot of change, a change request log can be very useful.
