Last Updated on May 24, 2010. October 11 2007. Multinational pulp and paper giant Sappi is under fire for poisoning life in the mighty Thukela River. Several local residents and fishermen are fuming about the foul chemical smells, poor fishing, dirty water, foam and paper fibre residues that sometimes make their fishing tackle look like “washing lines”.

Sappi making a big stink - environment.co.za

Sappi had made its two millionth ton of paper, only four years after making the one millionth which had come twenty-four years after the start of production at Enstra. Ngodwana made no paper but was gradually approaching its target of producing 250 tons of unbleached pulp per day — roughly 85 000 tons per year.

The pulp and paper industry has been criticized by environmental groups like the Natural Resources Defense Council for unsustainable deforestation and clearcutting of old-growth forest. The industry trend is to expand globally to countries like Russia, China and Indonesia with low wages and low environmental oversight. According to Greenpeace, farmers in Central America illegally rip up vast ...
