## **FREQUENTLY ASKED QUESTIONS ABOUT CROWS**

Crow on crow killings are documented infrequently, and have not been systematically tested (for obvious reasons), so the best us scientists can ever really do for this question is speculate. Crows often fight over things like territory boundaries, food, and mates, which is why it seems like there's an uptick in aggression during the breeding season when these things are defended more fiercely.

### **Crow curiosities: Do crows play and why?**

On another occasion, these crows were observed teaching their young how to mob a squirrel. She had a young one she was teaching how to navigate the wires that run along the backyards. The crows attacked her (a feign) and she defended herself and her baby. It wasn't a serious attack, just a demonstration of how it could be done. Crows are the best!

“CROWS CALLING AT NIGHT Yellow clouds beside the walls;  
crows roosting near. Flying back, they caw, caw; calling in the  
boughs. In the loom she weaves brocade, the Qin river girl. Made  
of emerald yarn like mist, the window hides her words. She stops  
the shuttle, sorrowful, and thinks of the distant man.
