T-Coffee is a multiple sequence alignment package. T-Coffee home page: T-Coffee To make T-Coffee available from UGENE see the External Tools. To use T-Coffee open a multiple sequence alignment file and select the Align with T-Coffee item in the context menu or in the Actions main menu.The following dialog appears: The following parameters are available:

T-Coffee - Unipro UGENE Online User Manual v. 33 - WIKI
T-Coffee is a multiple sequence alignment program. The main characteristic of T-Coffee is that it will allow you to combine results obtained with several alignment methods. By default, T-Coffee will compare all your sequences two by two, producing a global alignment and a series of local alignments (using lalign). The program will then combine all these alignments into a multiple alignment.

Manual Brew - Resume Coffee
A manual coffee grinder is in most cases fantastic value for the money, and even the cheapest models will outperform most electric grinders in the sub \$100 category. Let me tell you this quite frankly; when you first start your journey into the world of specialty coffee, you'll hear a lot of superstition when it comes to grinders.
